Use this template to document the issues, action items, and decisions discussed in each meeting.

MEETING #: 3			
Date:	4/21/21	Time:	2:00-2:40
Project Manager:	Mahmoud Zayad	Scribe:	Parikshit Solunke
Participants:	Parikshit Solunke, Damian Charczuk, Mahmoud Zayad		
Meeting Purpose:	Bad Data Meeting		
GENERAL DISCUSSION			
Upon working with the data Mahmoud found that he kept getting 100 % accuracy. So he looked into the data more closely and found they were all the same 5 entries over and over again pasted for 40,000+ entries. So we talked about different datasets we could use in place and notifying the professor. We settled on the student performance data set and decided to do the portugese language course data since it had the most entries. We also split up the work of building regression models and clustering models. We also discussed who should work on the report and presentation.
